**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of draft permit modification.

**DATES:** Comments on the draft modification must be received no later than January 21, 1997 or the date of publication of a similar notice in a local newspaper, whichever is later.

**FOR FURTHER INFORMATION CONTACT:** Call Linda Miller, (215) 566-2068.

**SUPPLEMENTARY INFORMATION:** Title IV of the Clean Air Act directs EPA to establish the Acid Rain Program to reduce the adverse environmental and public health effects of acidic deposition. Under the program, each affected unit at an electric utility generating plant must hold one allowance for each ton of SO<sub>2</sub> that is emitted during the year, and each plant must have a permit with a plan for complying. In today's action, EPA is issuing, for public comment, a draft modification to an existing permit, allocating SO<sub>2</sub> emission allowances and approving an SO<sub>2</sub> compliance plan, to the following utility plant:

Martins Creek in Pennsylvania: one substitution plan for 1996-1999, in which units 1 and 2 designate units 3 and 4 as substitution units; 12,553 substitution allowances are allocated

unit 3 for each year 1996-1999, and 11,548 substitution allowances are allocated to unit 4 for each year 1996-1999. The designated representative for Martins Creek is Robert J. Shovlin.

Dated: December 12, 1996.
